Short Stay Solutions

An aerial photograph of a campsite. In the upper half, there are approximately 30 small, white, rectangular huts with blue roofs, arranged in two rows. The huts are situated on a sandy or dirt area next to a body of water. A string of colorful flags hangs across the water in the background. In the lower half, several vehicles are parked on a dirt area. From left to right, there is a white SUV, a white box truck, a white sedan, a white SUV, and a white van. To the right of the vehicles, there is a large pink banner with a red cross logo and the text "We save the Groves out of Grocery shopping Contact: 011-800-8148".

ABOUT US

The innovative concept ‘**Movotels**’ meaning “***Movable Hotels***” has launched 4 years ago. The innovation lies within the quick and flexible placing of accommodation at different sites where there is extra need for comfortable temporary overnight stays especially for groups of people.

Today, the collapsible ‘Short Stay Solutions’, known as **Movotels Cabins**, are being rented at many major events all over Botswana. The Short Stay Solutions offers a temporary and comfortable stay for the event **participants, personnel, visitors, construction workers at sites etc** and give them the opportunity to stay at the or near the event location. In this way there will be less expensive traffic of people between location and accommodation and organizers can benefit from a higher spending amount per person on the event. This concept has also contributed to high effectiveness of construction and mining works where Movotels placed the cabins right next to the work site, cutting off travel times of crew or staff members etc

QUALITY

The cabin rooms are simple and quick to build-up and will be delivered turnkey.

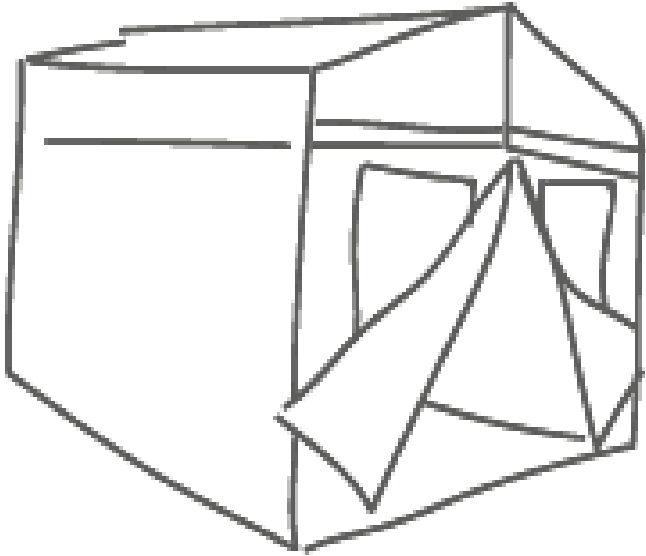

FLEXIBLE

At any location, at any time, a good sleep and unique experience.

HOSPITALITY

Our staff will be happy to give a helping hand 24-HR (technical) support or check in and out services are among the possibilities.

MINING MAN-CAMPS

MINING SHUTDOWN MAINTENANCE HOUSING CASE STUDY

Date: March 16, 2022

Challenge: Botswana Ash tasked Movotels & WITFORD to construct a turnkey workforce camp for an immediate lodging need at the Sowa Salt mine.

Solution: To sustain operations, Movotels deployed an 180 bed mobile facility, to serve as a temporary solution while a long-term facility could be constructed.

Movotels Differentiator: Our commitment to construction is second to none because we take the time to plan every detail according to the unique requirements of each client. Through our extensive inventory of owned mobile assets, Movotels can provide quick deployment of housing and food service solutions.

SERVICE & RELIABILITY

Our customers recommend us, Our movable hotel concept makes your patron's life easier and more. We are an accommodation company that understands "Guests Check In times" and "Readiness" Since our product launching we have never let down our event organizers with NO record of delayed setups. We have a team of men and housekeeping women who build a 100 furnished rooms per 24 hours and ready for stay in at your event. We transport our equipment to your site well in time from our secure storage containers in Maun or Francistown.

REFERENCES

Since Inception, Movotels has served and completed successfully different projects for the following companies in many different locations. These projects range from constructions company's sites, music festivals, private occasions, annual corporate events to the most unique setups e.g *A moving man-camp for National Geography's insects researchers, a 180 Man Camp for Botswana Ash Mine, to a VIP village for the mighty MTN Bushfire in Swaziland.*
